	Counsel for Plaintill	4	having been first duly sworn to tell the truth,
	MICHAEL C. COLVILLE Assistant United States Attorney	5	testified as follows:
	Western District of Pennsylvania 700 Grant Street, Suite 4000	6	EXAMINATION
	Pittsburgh, Pennsylvania 15219 Counsel for Defendant United States	7	BY MR. COLVILLE:
	DOUG GOLDRING, Attorney at Law 400 First Street, Northwest	8	Q Mr. Hill, good morning. My name is Mike
	400 First Street, Northwest Washington, District of Columbia 20534 Counsel for UNICOR	9	Colville, and I'm the Assistant U.S. Attorney assigned
		10	to defend your lawsuit, and the purpose of today's
		11	deposition is for me to get some information from you
		12	concerning the facts surrounding your complaint. To do
		13	that, I'm going to ask you a bunch of questions, and I
		14	need you to respond affirmatively, with a verbal
		15	response, not a shake of the head. If you don't
		16	understand any of the a question I'm asking you,
		17	please let me know, and I'll rephrase it or we'll figur
		18	something out, but I'm going to assume that, if you
		19	answer it, you understand the question.
		20	What I'd like to do is begin by asking
		21	you questions about your work history while working at
		22	UNICOR. Can you tell me, if you recall, when you began
			PAGE 5
PAGE 3	INDEX	1	working at UNICOR at McKean?
		2	A I believe it was August 2'02.

Witness		1 3	Q Okay. What position did you noid at that time, within UNICOR?
Michael Hill	4 (Colville)	4	
	63 (Goldring)	٦	A I was assigned to the night shift, P.M. shift, and I was assigned to a part of the factory
		6	called the car wash; it was in, what I believe to be,
		'	packing. I don't believe that that was what was
		8	
		9	documented on the papers as far as my assignment was
		10	concerned, but I worked most of the time in the car
		11	wash. I believe they had me assigned to something
	•	12	called Lay-Up Two, on paper.
		13	Q Is Lay-Up Two different than the
	·	14	packing? A I don't even I never I never knew
		15	
		16	what Lay-Up Two was. It's different I believe it's
		17	different than the packing, yes.
1		18	Q Okay. Who was your direct supervisor at
		19	that time?
		20	A Rob Bevivino.
		21	Q How many days a week would you work, and
		22	how many hours a day did you work?

1	A I worked from I worked five days a	1	shift that you worked, was there always some type of
1	week, from, I believe it to be, 3:30 to 10:30.	2	work involving Micore boards, either cutting, boring,
2		3	any type of work which would have caused dust to occur,
3	Q Would you describe for me the duties	4	or were there nights when there was no cutting, boring,
4	that you had as a in the car wash or in the packing	5	and it was just a matter of packing and organizing the
5	department?		work for the next day?
6	A We were like the end of the line. When	6	A I can't answer that question, because
7	the material like the material that such as that	7	the UNICOR was so big that I don't know what guys were
8	table you're sitting at, we would take that and wipe it	8	the unitual was so by that I wasn't working
9	down and stack it, and right at the edge of the table	9	doing in other areas on the days that I wasn't working
10	that we had, that was where the guys would box it up,	10	with the Micore board.
11	seal it up, and ship it to the dock to be to go out.	11	Q Well, I'm talking about the days where
12	We would just clean it, wipe it down, and stack it for	12	you were working.
13	those guys to put over into the crates that it would go	13	A I usually worked with it about three
14	out in.	14	days a week.
		15	Q I understand that. I'm just saying, the
15	Q How long did you hold this job? A I held that job from August up until	16	three days a week that you were taken away from packing
16	sometime around April 2003, I believe. I may be a	17	and you were used wherever they needed you, was it
17		18	always such that there was cutting, sawing, or boring of
18	little	19	the Micore boards at that time, or were there periods of
19	Q Did you have any other jobs within	20	time where you were taken away and just did other work
20	UNICOR, other than the packing job that you just	21	that didn't involve the cutting or the boring or that
21	described?	22	type of work?
22	A Sure. Yes.	22	type or work:
ŀ			
	PAGE 7		PAGE 9
		1	A That would probably go to the other two
1	Q What jobs were they?	2	days. Yeah, that would probably go to the other two
- 2	A For the most part, if you worked in the	3	days out of the of the five days, where I would go
3	car wash or the packing, there wasn't a lot of work on	4	to, maybe, another area and they had an area where
4	the P.M. shift, so, customarily, when we were sitting	5	they laminated boards and it went through a machine, and
5	around, we were pulled out of that area and taken into		we would go over they would need guys to hold the
6	another area. It was no specific area that they would	6	boards, and then there was a couple of other areas that
1	take us in; they would just take us where they needed	7	we would go to, but for the most part, there seemed to
8	help.	8	be to have been an abundance of Micore board coming
9	Q What types of jobs would you have to do	9	De to have been an abundance of micore board coming
10	on those occasions?	10	into the facility at the time period that I worked, and
11	A Sometimes, I would go to the saw and	111	I heard a lot of reference to that.
12	help the guys with the boards, stacking the boards,	12	Q Tell me a little bit more about what you
13	cutting the boards, and just handling the boards and	13	mean by that, please.
14	taking them from one area to another.	14	A When they would come and get us to work
	Q How often would you have to do this type	15	those areas, they would say we have to get this tack
15	of work rather than the packing work?	16	board or Micore board ready, we have a lot of it coming
16		17	in, we have a lot of it to help the A.M. shift with.
17	- 1 1 may 1256 and bloom	18	Q When you say help the A.M. shift, what
18	Q During the P.M. shift, was there always	19	do you mean by that?

19	a wall not a wall not just outling	170	A Work left over from the A.M. Shift.
20	A Well, not well, not just cutting.	20	
20 21	A Well, not well, not just cutting. There was a lot of machining.	21	Q So you would finish work that they

7	A Yes, sir.	1	would have been away from it while you stacked the
8	Q Mr. Hill, is there a difference between	8	boards and then took them elsewhere in the factory, is
9	tack board and Micore board?	9	that correct?
10	A Not to my knowledge.	10	A We would we would to help you
11	Q So when people reference "tack board,"	11	understand what I'm saying, we would come to the router
